

THE MEDIC MEDICAL CASTERS

One button. Multiple advantages. Here's the medical caster that's simply better, with cutting edge design and patented technology guaranteed to deliver unmatched performance.

The Medic: Simply more advanced. The world's first single button, triple-function caster.

With The Medic® casters, one easy-to-engage foot pedal controls three functions: free swivel, swivel lock, and total lock. In addition, neoprene wheels, a hardened ball bearing race, and a unique cam assembly contribute to create the world's easiest rolling, most reliable medical caster. Add in more dependable braking force and legendary Darcor reliability and The Medic® casters are a proven prescription for greater productivity and fewer workplace injuries.

The Medic: Simply easier to look at—and into—with a unique caster position window.

The Medic® casters are all substance, with measurable advantages over the competition, including a colour-coded window that clearly shows the caster position, even in low light. But looks count, too, and this aesthetically appealing product will add real value to your equipment in the showroom and in the ward.

GREEN POSITION (Free Swivel)

In the green position, The Medic is free to move in all directions.

YELLOW POSITION (Swivel Lock)

One click to yellow position and The Medic can move forward and back but not swivel.

RED POSITION (Total Lock)

One click to red position and The Medic will not swivel or roll. A return to free swivel (green) is just a click away.

The Medic: Simply a better bottom line investment to support your products in the market.

In today's medical equipment marketplace, every dollar counts. Which is why The Medic® casters are designed and priced to appeal to your value consciousness...and your customers'. For the same price as yesterday's technology, you can have the medical caster of the future. Now.

Cover Material: ABS (Polymer)

Cover Colour: Grey with blue brake pedal

3-Position Model: Single button 3 position caster with free swivel, swivel lock and total lock

Swivel Model: Free swivel only

Wheel Bearing: Precision sealed

Top Plate: 2.5" x 3.625"

Where Should You Use The Medic:

- > Ultrasound Machines
- > Mobile X-Ray Machines / Trolleys
- > Anesthesiology Machines
- > Pill Carts
- > Transfer Chairs

Key Benefits:

- > Ease of use
- > Lowest starting force in the industry*
- > Lowest rolling force in the industry*
- > Lowest swivelling force in the industry*
- > Equipment protection
- > Exceptional noise and vibration reduction
- > Reliability – zero maintenance
- > Non marking non staining wheels*
- > Cutting edge design

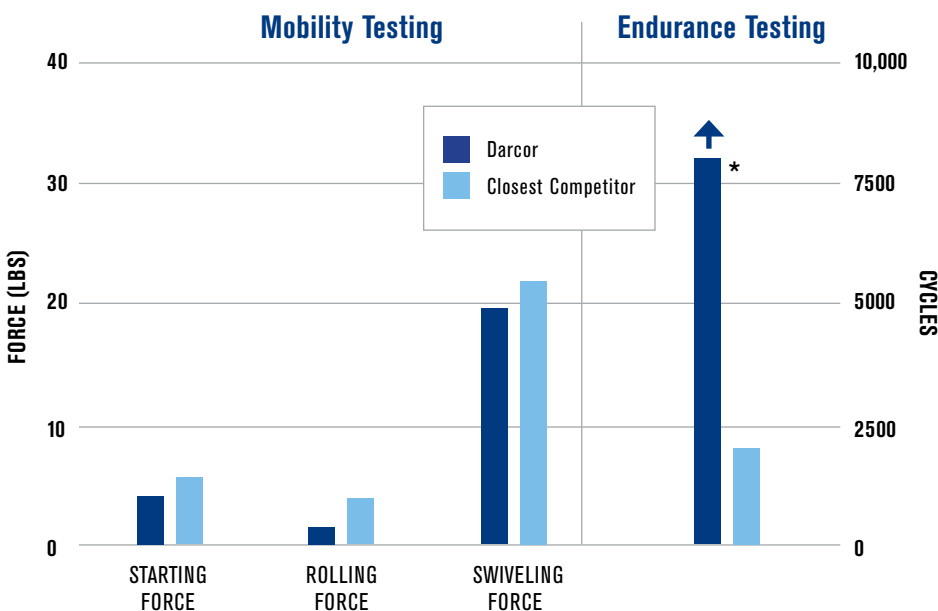

* Using Darcor's Neoprene (SR) wheel under a load of 350lbs compared to similar durometer wheels

Why Darcor:

For over 75 years, Darcor has been the leading authority on custom and unique caster solutions to companies around the world. Darcor is dedicated to providing high performance casters and wheels, superior service, and expert technical support in an effort to improve our clients business results.

Whether you are trying to reduce health and safety expenses, equipment downtime or maintenance expenses, The Medic is the solution for your business.

COMPETITOR TESTING RESULTS

Testing Weight 350lbs (Floor Surface: Concrete with 4 casters)
Using: Darcor's Medic caster with a Neoprene (SR) Wheel

* Testing was stopped at 8,000 cycles and Darcor's caster showed no damage. Competitor caster broke at 2000 cycles.
Testing Conditions: 160 lbs, 1 inch bump, 3 km/h

Available Wheels

Standard

Neoprene Super Roll (SR)

Optional

Neoprene (D)
